

Primary student use of mobile phones and personal devices

Blair Athol North
B-7 School

Purpose

This policy provides direction to students, staff and families about managing mobile phones and other digital devices that students choose to bring to school. Digital devices include, but are not limited to, smartwatches, tablets or laptops that are not part of a separate Bring Your Own Device arrangement. This policy applies while students are at school, or attending an authorised school activity such as an excursion, during school hours.

Mobile phone use for primary school students

The department's position is that primary aged students cannot use their mobile phones and personal devices at school during school hours. The department and the school recognise that there are legitimate reasons for students to bring a mobile phone or personal device to school. This may include:

- to ensure their safety while travelling.
- so that parents can contact them outside of school hours.

During the school day students are not permitted to access or use their mobile phones or other personal devices. Students must switch off or mute their devices before storing them at the beginning of the school day. They will not be able to access their device until the end of the school day.

Storage of personal devices

During the school day mobile phones and personal devices will need to be stored in a secure place unless...

- it has apps directly linked to the child's health, EG Diabetes (measuring blood sugar levels). This should be negotiated between the family and school
- exemptions from the policy

Students should hand in their mobile phone or device to office staff or their home group Learning Advisor prior to lessons starting and collected at the end of the school day.

If the student does not comply

Parents will be contacted.

In the case of repeated non compliance the phone will be confiscated to the end of that school day.

Follow the school's Behaviour Education Agreement.
